The Proposal Submission Process

Learning about the EC Grant Proposal Process

It is very important that you familiarize yourself with the overall research and innovation grant process by first consulting the [Funding Guide](#). There you will find a wealth of information including the [Horizon 2020 Online Manual](#), numerous [Reference Documents](#), the [Beneficiary Register](#), a [Financial Capacity Self-Check](#), as well as important information on the participation of [Micro, Small and Medium Enterprises \(SMEs\)](#). Make sure you have read through all these resources prior to starting your Submission process.

Proposal Submission Preparatory Checklist

In preparation for your online application submission process, you must go through the following steps:

1. Decide on the funding opportunity that you want to apply for. [Funding Opportunities](#) are categorised as Work Programmes, Calls, Topics and Actions. Programmes are listed under the Horizon 2020 title.
2. Select your Partners. Most calls require a consortium of three organisations. Relevant information can be found on the [Participant Portal](#).
3. Register as a user in [ECAS](#) (the European Commission Authentication Service). For instructions also see Appendix B at the end of this document.
4. Your organisation and your Partner organisations must register in the [Beneficiary Register](#) through the [Participant Portal](#) (and consequently using the Unique Registration Facility - URF) and receive a Participant Identification Code (PIC). Additional information is available in the [URF Manual](#).

Quick Steps to the Online Submission Process

The following basic user actions are involved in the online submission process. Refer to Chapter 1 for the detailed step-by-step procedures.

6. Invite Partners to the process

Accessing Your Draft and Submitted Proposals

You can access your saved proposal drafts as well as your submitted proposals at any time, from the [My Proposals](#) page in the Participant Portal (you must be logged in). Alternatively, you can access your proposals

from the [My Organisations](#) page in the Participant Portal using the  action button for the respective organisation.

Contact and Support

Proposal pre-registration data

1. Information used for the pre-registration and creation of a draft proposal: Call, topic, type of action; Participant Identification (PIC) code of your Organisation, Acronym, Short Summary, Panels and Keywords. (Step3) and the list of participating organisations (Step4) - can be used by the services in charge for the planning of evaluations.
2. Short Summary describes briefly the purpose of the proposal with a maximum of 2,000 characters. Entering at least keywords will help the services in the planning of the evaluations. Coordinators may choose to enter 'xxx' at this stage should they prefer not disclosing any data. The 'Short summary' information is then copied to the "Abstract" field in the administrative form and can be modified there.

If you do not wish any of your pre-registration data to be available to the European Commission/service in charge prior to call closure then please send an email to the Participant Portal Service Desk (address available at the foot of the screen and in the User Guide).

Part B

3. **File format:** For the Technical Annex (part B) you must use exclusively PDF ("portable document format", compatible with Adobe Acrobat version 5 or higher, with embedded fonts). Annexes might have an obligatory page limit. Please check for the number and type of mandatory or optional annexes for the call in the relevant call documentation. Annexes with excess pages where page limit applies, will receive a watermark upon upload to the system. Users will receive a warning when trying to submit an annex with excess pages.

Likewise, modifications to proposals or uploaded attachments are also required to be submitted prior to the call closure deadline or they will not be taken into account. Proposals may be submitted or withdrawn at any time prior to the call closure deadline. There is only ever one version of a submitted proposal, as submission over-writes the previous version.

USER ACTION #4: Edit and Complete Proposal Draft Form, download Templates and complete all required information, Upload files, Validate and Submit your proposal

This step is the core of the submission process. You can come to this step by either clicking on [next >>](#), as stated above, or, to access a previously saved draft proposal form, go to **MY AREA > My Proposal(s)** page in the Participant Portal (you must be logged in) and click the **ED** button in the **ACTIONS** column for the respective proposal, as shown in the visual example below:

The screenshot displays the 'My Proposals' page in the Participant Portal. The page header includes the European Commission logo and the text 'RESEARCH & INNOVATION Participant Portal'. The breadcrumb trail is 'European Commission > Research & Innovation > Participant Portal > My Proposals'. The navigation menu includes 'MY AREA', 'HOME', 'FUNDING OPPORTUNITIES', 'HOW TO PARTICIPATE', 'EXPERTS', and 'SUPPORT'. The user is logged in as 'IVAN TERZIEV'. A dropdown menu for 'MY AREA' is open, showing options: 'My Organisation(s)', 'My Proposal(s)', 'My Project(s)', 'My Notification(s)', and 'My Expert Area'. The 'My Proposal(s)' option is selected. The main content area is titled 'My Proposals' and includes a 'H2020 ONLINE MANUAL' button. The text explains that the page provides a list of all proposals relating to the user as a participant, including proposals initiated or submitted as a Coordinator/Principal Investigator, or proposals contributed to as a project participant. It also states that users can view, edit, or download their draft or submitted proposals, depending on the proposal status and the deadline of the relevant call. To start preparing a new proposal, users are directed to 'Funding Opportunities' and the 'electronic submission system'. A legend identifies the action buttons: 'ED' (Edit Draft), 'VD' (View Draft), 'VS' (View Submitted), and 'DE' (Delete Proposal). The table below shows a list of proposals with columns for PROGRAM, CALL, FUNDING SCHEME, PROPOSAL ID, ACRONYM, STATUS, REMAINING TIME, and ACTIONS. The first proposal is highlighted, and its 'ED' button is circled in red.

4.1. FAMILIARIZING YOURSELF WITH THE WIZARD AND THE FORM

Click the first  button at the top of the screen to read the general help instructions for editing proposal forms, as shown on the visual example below:

The screenshot shows the 'Edit Proposal' wizard interface. At the top, a progress bar includes steps: LOGIN, FUNDING SCHEME, CREATE DRAFT, PARTIES, EDIT PROPOSAL (current), and SUBMIT. The main content area is titled 'Edit Proposals' Forms' and includes a warning: 'WARNING: This proposal contains changes that have not yet been submitted...'. Below this, there are sections for 'Administrative Forms' and 'Part B and Annexes'. A modal window titled 'Edit Proposals' Forms' is open, displaying the following instructions:

- You may return to this step from the "My Proposals" section of the Participant Portal.
- Submit your proposal as early in the process as possible - you can update and resubmit an improved version many times before the call closure
- Submitting a proposal will overwrite any previous versions of this same proposal - this process is irreversible
- Any changes made here to the proposal will not be available to the European Commission/service in charge unless resubmitted before the call closure.

The interface also shows a sidebar with details for 'H2020-EUJ-2014', user 'Lazaros Bountouroglou', and a 'Configuration OK' message stating 'You're using Firefox Windows. Adobe Reader (version 11,0,5,3) is installed.' At the bottom, there are navigation buttons: '<< Step 4 - Parties', 'validate', and 'submit'. The footer contains the text 'Version: 20140122-1403 - Service Desk: DIGIT-EFP7-SEP-SUPPORT@ec.europa.eu (+32 (2) 29 92222)'.

Click the  button in the **Administrative Forms** section to read the help instructions for editing the administrative forms of the proposal, as shown on the visual example below:

The screenshot displays the 'Edit Proposal' step in the EC Proposal Submission Service. The interface includes a progress bar at the top with stages: LOGIN, FUNDING SCHEME, CREATE DRAFT, PARTIES, EDIT PROPOSAL, and SUBMIT. The current step is 'Step 5 Edit Proposal'. A sidebar on the left shows proposal details: 'P_IA', user 'Lazaros Bountouroglou', 'ICT-02-2014', 'IA', 'WED 23 April 2014 17:00:00 Brussels Local Time', '65 days left until closure', and an 'Acronym' table with 'tst1'. A 'Configuration OK' message states: 'You're using Chrome Windows. Adobe Reader (version 11.0.5.0) is installed. For more information consult the User Guide'. The main content area is titled 'Edit Proposals' Forms and contains a warning: 'WARNING: This proposal contains changes that have not yet been submitted...'. Below the warning is the 'Administrative Forms' section, which says 'Edit will open the forms in Adobe Reader.' A help modal is open over this section, titled 'Administrative Forms', with a close button (x) in the top right. The modal contains the following instructions:

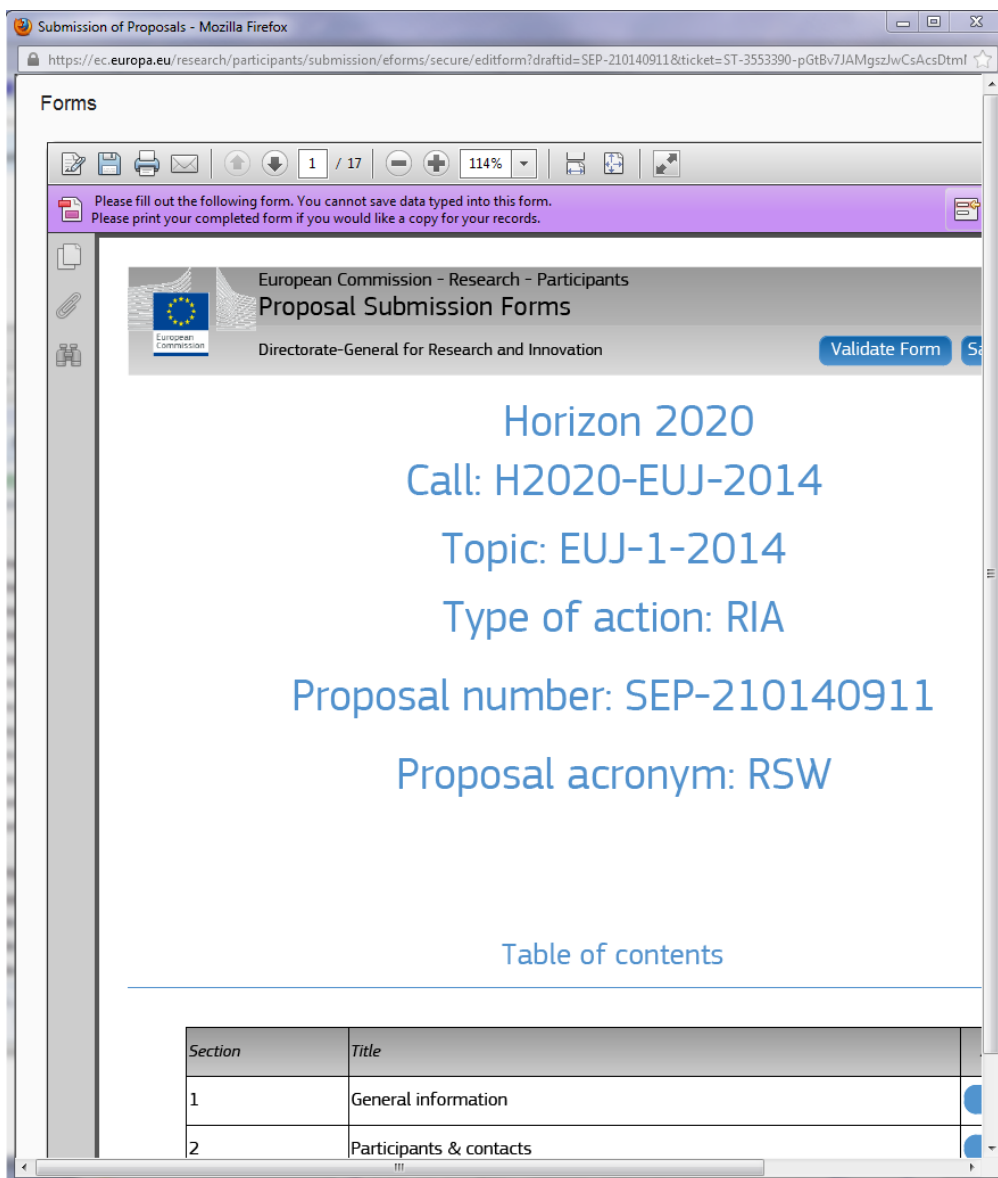

- As coordinator you have the rights to edit all sections of the administrative form, participants can only update their relevant sections - including the budget form.
- Note that participants and other coordinator contacts may also update the form while you are editing it, with the last-saved having priority
- Always re-check the content for correctness prior to submission
- Data which is pre-populated in the administrative forms from the Beneficiary Registry is read-only and cannot be changed. If you consider that a change is necessary then please follow the existing procedure to request an update via Participant Portal.
- The forms will open in Adobe Acrobat - the configuration panel on the lower left of the screen indicates your system's readiness for this
- If you have a browser/OS combination which offers an Adobe Acrobat browser plug-in, then the forms will open within this browser session
- If your browser/OS does not support a plug-in then the forms will open in a separate Adobe Acrobat window
- Please click the "help page" in the Configuration widget on the left for more information and help
- Extra guidance can be found inside the form as 'ghost text' in the data fields, guidance text when you position the mouse on the data item and expandable help text denoted by a '?' box.

At the bottom of the interface, there are navigation buttons: '<< Step 4 - Parties', 'validate', and 'submit'. The footer shows 'done' and 'Version: 20140122-1403 - Service Desk: DIGIT-EFP7-SEP-SUPPORT@ec.europa.eu (+32 (2) 29 92222)'.

Click [edit forms](#) to open the form for editing.

Please see the *Compatibility and Troubleshooting* section at the end of this document for in depth information on your browser displaying the form in the open browser window or downloading it in your downloads file. If it is downloaded, you can work on the downloaded file offline. **THE DOWNLOADED FORM HAS A TIME STAMP FROM THE COMMISSION'S SERVERS AND IT EXPIRES 13 HOURS AFTER IT IS DOWNLOADED .IF YOU DO NOT COMPLETE, SAVE AND CLOSE THE FORM WITHIN 13 HOURS, YOU MUST DELETE THE OLD FORM, RETURN TO THE WIZARD AND DOWNLOAD A NEW COPY OF THE FORM.** The images below display the form inside the browser window. Whether displayed in a browser window or downloaded to work offline, the functionality of all buttons, fields, and the entire process are exactly the same.

The form may not auto-fit in the size of your currently open window, as shown on the visual example above.

You may need to adjust your window size, or the form size, or both: When adjusting the window size, you will notice that the form has been opened on top of the Submission Wizard.

Use the zooming (+/-) buttons to zoom the form window size in or out.

Alternatively, you can specify the percentage ratio in the % drop-down list: either select a pre-defined percentage from the drop-down list (i.e. 150%) or type in the desired number directly in the field.

You can also move the mouse cursor to the top of the form and move the form into place as needed.

What You Need to Know about Completing the Form

Who Can Fill In the Form?

The Main Contact is the only person that can complete the form, including the budget table and all other administrative details. Partners can preview the form and edit their contact detail information.

Click the  button to access the forms.

Read-only Fields

The list of participants and contact persons, the Participant Identification Code (PIC) and the respective summary data of the participants (shown in blue in the form) are read-only fields. To modify the list of participants or contact persons, please go back to Step 4. To modify the legal data of the organisation, please read more about it in this [Data Update](#) section.

Guidance in the Form

If you click on the question marks in blue, you can read more information about the question or section.

Each box of the form contains a short text guiding you on the format, the length and the expected level of information. That text appears when you bring your cursor over the top of the box. Once you click on the text or start editing the information, it disappears automatically.

Navigation in the Form

To view the different sections in the form, you may either use the scroll bar or click on the blue "Show" buttons as seen in the Table of contents.

Validation

The form has built in checks and gives error or warning messages in case fields are not completed. Please click on the  button to check your data. Errors and warnings will be listed at the end of the form. Error fields will be highlighted in yellow, whereas fields with warnings will be highlighted in red. Errors mean that mandatory information is missing (such as the Proposal Title) and the proposal cannot be submitted until these errors are resolved. Warning messages do not block submission, but they indicate missing information that may be important for the proposal and, ideally, these warning messages ought to also be addressed and the information fields ought to be corrected. By clicking on the "Show" button, you can easily get back to the respective fields to correct them.

Saving of the Data

Before closing the form, click on the  button. The save and close function does not validate the information on the form, so it works even if the form is not completely filled in. This will take you back to Step 5, where you can upload the Technical Annex and any additional documents.

You may return to edit the form as many times as you wish prior to call closure. Any changes saved on the form need to be resubmitted in order to be received by the European Commission and considered for evaluation.

Technical Requirements

The configuration check tool, located on the bottom left-hand side of the submission system, automatically verifies if your system configuration complies with the [minimum requirements](#).

Action Buttons within the Form

Two action buttons in the PDF form help you find and verify the information easily.

Description

Validate Form

When you click this button, all data fields in the forms will be validated against a set of rules.

The system assesses if the available data is valid, checks the data formats, performs computations, and checks interlinked data for consistency.

Any issues found in the form are reported at the end of the PDF form.

Save And Close

Click to save the completed administrative form and close it for editing.

You can save your form data even if the form is not completely filled in - you can edit it at any moment prior to the deadline. Save and Close does not validate the data.

4.2. EDITING AND COMPLETING THE FORM

To start completing the form, scroll down or click on the blue **Show** button to navigate to the respective section of your form. This is primarily an administrative form that requires general information, administrative data of participating organizations, budget information by partner, and also Call-specific information.

4.4. PART B - DOWNLOADING AND COMPLETING THE ANNEX FORMS

Click on [download templates](#) to download the latest proposal requirements template in a readily editable RTF file.

The screenshot shows the 'Edit Proposal' interface. At the top, a navigation bar includes 'LOGIN', 'FUNDING SCHEME', 'CREATE DRAFT', 'PARTIES', 'EDIT PROPOSAL', and 'SUBMIT'. The main content area is titled 'Step 5 Edit Proposal' and features a sidebar on the left with details for 'H2020-EUJ-2014', including a calendar icon, 'EUJ-2-2014', 'RIA', a date of 'April 2014 17:00:00 Brussels Local Time', and '44 days left until closure'. Below this is a table with columns 'Acronym', 'ID', 'PIC', and 'Contact', and a 'Configuration OK' status with a green checkmark. A system message indicates 'Adobe Reader (version 11,0,5,3) is installed'. The main content area is titled 'Edit Proposals' Forms' and contains a warning: 'WARNING: This proposal contains changes that have not yet been submitted...'. It has sections for 'Administrative Forms' with 'edit forms', 'view history', and 'print preview' buttons, and 'Part B and Annexes' with an 'upload' button. A 'download templates' button is highlighted with a green box. At the bottom, there are three rows for 'Technical Annex Section 1-3', 'Technical Annex Section 4-5', and 'Optional annex 3: Ethics - Supporting Document(s)', each with an 'upload' button and a red 'X' icon.

The template describes the information that must be included in your application and how to structure that information. You will need to complete this package as thoroughly as possible. You may want to also check with [Enterprise Europe Network](#) and your [National Contacts Point](#) for Assistance (see the *Support* menu of the Participant Portal). It is important that you remain within the file size and page limits that a proposal may have. Once you have completed your proposal based on the downloaded template, you must convert it into a PDF file, which you will then upload as an Annex form of the proposal. This is referred to as Part B of your proposal.

4.5. UPLOADING THE ANNEX FORMS

The following file upload requirements are mandatory:

Clean up your document before converting it to PDF (e.g. accept all tracked changes, delete internal review notes or comments, etc.).

1. The file size for the Part B of the proposal may be limited. If so, the limits are given in the documentation available in the call's information package on the Participant Portal. Use a maximum resolution of 300 dpi for all graphics and text (photocopy quality). This can dramatically reduce the PDF file size.
2. Embed all fonts in the PDF file (math symbols, non-Latin alphabet text, etc.).
3. Check that your PDF conversion software has successfully converted all the pages of your original document (e.g. check for any problems with page limits, tables, graphics or footnotes).
4. Check that your PDF conversion software has not cut down landscape pages to fit them into portrait format.
5. Check that captions and labels have not been lost from your diagrams
6. Please note that the Commission prints out proposals in black and white on plain A4 paper. If you are using colours, make sure that they are correctly interpreted and visible as nuances of grey.
7. Ensure that the printable zone on the print engine is bounded by a 2 cm margin from right, left, top and bottom sides, that no scaling is applied to make the page "fit" the window, and that printing is done at 300 dots per inch
8. Ensure that the Part B file names contain only alphanumeric characters (A-Z, 0-9)
9. Do not put a password on the attached file. Your proposal will not be printed and the Commission will not request any additional information from you.
10. Check the quality of your uploaded files. After uploading them, download them to check whether the transfer is correct and if the file is complete. If not, make the necessary corrections and resubmit.

Note: If the Commission encounters a problem when opening or printing the file, the complete proposal will be considered ineligible.

Only the proposal coordinator can upload the Part B of the proposal and submit the proposal, go back to the previous step and change or delete the participating organisation and the associated contact persons. Partners can download the template and the uploaded files.

Once the downloaded templates have been completed and are ready to upload:

1. Click the **upload** button for the respective document in Step 5 of the Submission Wizard.

4.6. VALIDATE AND SUBMIT YOUR APPLICATION

You must click the [validate](#) button to make sure that your application meets the requirements. The system will check and advise you of any issues with all the forms, and whether your application meets the requirements of Partners, file sizes, number of pages, etc. Any errors will be displayed as indicated below:

The screenshot displays the 'EDIT PROPOSAL' step of the application process. A modal window titled 'Validations' is open, providing a summary of errors and warnings. The modal is divided into sections for 'Part A Form', 'Part B and annexes', and 'Eligibility warnings'. A 'view errors (1)' button is highlighted in green next to the 'Declaration' error. Another 'view warnings (5)' button is highlighted in green next to the 'Part A Form' section of the warnings. The background interface shows a progress bar with steps: LOGIN, FUNDING SCHEME, CREATE DRAFT, PARTIES, EDIT PROPOSAL, and SUBMIT. The current step is 'Step 5 Edit Proposal'. The left sidebar shows project details for 'H2020-EUJ-' and 'EUJ-1-2014', along with a calendar and a '43 days left until' notification. The bottom of the screen features a 'done' button, a version number, a service desk contact, and 'validate' and 'submit' buttons.

The screenshot displays the EC Proposal Submission Service interface. At the top, a red banner states: "Your proposal cannot be submitted until the errors below are corrected:". Below this, the form is divided into sections: "Part A Form" and "Part B and annexes".

Part A Form:

- Declaration: A link "view errors (1)" is highlighted with a green box, pointing to the error "Declaration acceptance is mandatory".

Part B and annexes:

- Mandatory Technical Annex Section 1-3 is missing
- Mandatory Technical Annex Section 4-5 is missing

Warnings:

The following warnings will not block submission of your proposal, but may affect its eligibility during evaluation:

Eligibility warnings:

- Call requires at least 3 participant(s) from different EU member states or associated countries, currently you have 2.

Part A Form (Warnings):

- Declaration: A link "view warnings (5)" is highlighted with a green box, pointing to five instances of "Declaration acceptance missing".
- Ethics: A link "view warnings (1)" is highlighted with a green box, pointing to "Declaration - missing entry".
- General Information: A link "view warnings (2)" is highlighted with a green box, pointing to "Duration - missing entry" and "Similar Proposal submitted - missing entry".
- Participants and contacts: A link "view warnings (18)" is highlighted with a green box, pointing to a list of 18 missing entries including Department Name, Street, Town, Postal Code, Country, Main Contact Position, Main Contact Street, Main Contact City, Main Contact Sex, and Main Contact Department Name.

At the bottom right, there are "validate" and "submit" buttons. A "Close" button is located at the bottom center of the error/warning list.

Each error detail line is a link to the respective section of the form. Clicking on the link, opens the form on top of the errors and warnings page, so you can correct it. Once done, close the form and you will be back to the errors and warnings page.

When all errors and warnings are corrected, click the **validate** button again to make sure you have not missed anything. Once you get the No Errors validation screen, click on **submit**. Your proposal has now been submitted and the system displays a message indicating that the proposal has been received.

The Submitted status will also be shown on the **My proposals** page of the Participant Portal. The system also sends a submission confirmation e-mail to the Proposal Coordinator, containing the details of the submitted proposal. Note that the e-mail could end up in the spam folder or get blocked by the anti-spam system of your organisations, so make sure that you check for it as needed.

The point at which the submission takes effect is the moment when the Proposal Coordinator clicks **submit** without any errors found, and sees the message indicating that the proposal has been received. It is not the point at which the upload of the Annex documents is started. Therefore, if you wait until too near to the close of the call to start uploading your proposal, there is a serious risk that you will not be able to submit it on time.

You can upload your Annex documents or submit your proposal as many times as you wish prior to the call deadline, but it is strongly advised not to wait until the final moment to perform these operations. Each time you upload a new Annex document, you **must** click **submit**, if you want to save your changes.

USER ACTION #5: The 'Proposal Submitted' Page

Reaching Step 5 means that your proposal has been successfully submitted and therefore sent to the European Commission services for evaluation.

In Step 5 you can perform the following actions, as indicated on the visual example below:

The screenshot displays the 'Proposal Submitted' page. At the top, a progress bar shows the steps: LOGIN, FUNDING SCHEME, CREATE DRAFT, PARTIES, and SUBMIT. The current step is Step 6, 'Submit'. A green banner at the top right says 'Successfully submitted message'. The main content area is green and contains the text: 'Your proposal has been successfully submitted. Your proposal was submitted on: 05 July 2012 at 12:21:23 (Brussels Local Time) as part of the FP7-ICT-2011-9 call, before the deadline of 31 December 2013 at 17:00:00 (Brussels Local Time). Your project ID is 601791. This number is important and will be used as future reference during the evaluation process.' Below this is a 'Revisit your Proposal' section with three buttons: 're-edit proposal', 'download', and 'withdraw proposal'. A 'Configuration OK' message is shown at the bottom left, indicating that Adobe Reader is installed. The footer contains the version number and support contact information.

Revise (Re-edit) the Proposal

Click the  button to go back to Step 5 if you need to revise the proposal. The Proposal Coordinator may continue to modify the proposal and submit revised versions overwriting each preceding one right up until the deadline.

Download Submitted Proposal Package

After you submit the proposal, it is advised to download it in order to check that it has been correctly sent. The downloaded proposal will be digitally signed by the Commission's servers and time-stamped. Depending on the system load, this action may take some time before it is accessible. Click the  button to download the proposal.

Note: Sometimes, after you download the submitted proposal, you may see the following message: "the signature is not guilty." – this means that the signature is not valid Please consult the Troubleshooting Document Signature section further in this document for more details.

Withdraw Submitted Proposal

If the proposal is withdrawn, it will not be considered for evaluation. However, the system will keep the proposal draft and the withdraw action may be reversed by re-submitting the proposal before the deadline. The system will request a reason for the withdrawal.

When a proposal is withdrawn, a message is displayed on the screen, as shown in the visual example below. The system also sends a submission confirmation e-mail to the Proposal Coordinator, containing the details of the withdrawn proposal. Note that the e-mail could end up in the spam folder or get blocked by the anti-spam system of your organisations, so make sure that you check for it as needed.

To complete this action, click the  button.

PARTNER ACTIONS

As discussed above, a partner must have access to the ECAS and a PIC, in order to be added as a Partner.

When the Proposal Coordinator clicks  in Step 4, the system sends an automatic email to all the Partner contacts with the proposal related links..

Once the Partners enter the electronic submission system, it will display Step 5 of the submission process where the  button enables them to access the electronic administrative forms and the rest of the proposal package as their participation requires.

To access the consortium contact details, they will need to click the  button – the system will show Step 4 of the submission process.

Completing the forms

When the PDF form is opened, the partner will have to verify or fill in their administrative forms.

When they finish, they must make sure that no validation errors are left unaddressed. To check for validation errors, they will need to use the **VALIDATE FORMS** button located at the bottom of the page.

CHAPTER 3: REFERENCE GUIDE TO ROLES, SCREENS & ACCESS TO USER ACTIONS

Roles, Proposal Coordinator, Partner, Referee, Contact Person

The roles that are available in the system are the Proposal Coordinator, Partners, Referees, and Contact Persons (optionally). The Proposal Coordinator and each of the Partners have a Main Contact and can optionally have one or more additional Contact Persons. Depending on the proposal you participate in, you might act on behalf of one or more of these roles and your current role will determine the actions you will be enabled to perform and the information you will be required to provide.

- **Proposal Coordinator.** The Proposal Coordinator acts as the single point of contact between the participants and the Commission for the respective proposal. The Proposal Coordinator is generally responsible for the overall planning of the proposal; for building up the consortium that will do the work, and (s)he is always the first participant. Note that for some calls, only one participant is needed and the participant will be the Proposal Coordinator of the given proposal by default.
- **Partner.** If you are a Partner to a proposal, you will be invited by the Proposal Coordinator to fill the administrative forms that contain the contact and address details. Most of the fields will be pre-filled with data already supplied by the Commission systems in order to save time and to ensure better data quality.
- **Contact Person.** As an option, you as a Proposal Coordinator or as a Partner may decide to delegate some of the work on filling in or reviewing your parts of the proposal submission forms to one or more additional Contact Persons. You can grant each Contact Person full access rights or read-only access to the forms data. A Contact Person will only be entitled to edit/view the parts of the proposal that his/her organisation is responsible for.

Role Rights: The following table highlights the differences between a Proposal Coordinator and Partner actions:

Action	Proposal Coordinator	Partner
Select the call	Yes	No
Add, Invite Participants	Yes	No
Submit the proposal	Yes	No
Read complete proposal	Yes	Yes
Define the budget tables	Yes	No
Create Contacts for a Partner	Yes	No

The Timeline around the Deadline

Proposals can be submitted multiple times before the call deadline specified in the information package of the call, available from the Participant Portal. Calls deadlines are fixed and are strictly enforced. Only the last submitted version will be evaluated, where each newly submitted version overwrites the preceding one. After the call deadline, the proposal can no longer be modified and no further participants can be invited. Practise the submission action well before the deadline to ensure a risk-free submission of your proposal and proper correction of warnings.

After the deadline, the proposal remains available in read-only mode and can be accessed by the coordinator and the proposal participants invited before the deadline.

The Online Submission Wizard: Screens and Access to User Actions

The electronic submission system screen is organised as follows:

- A progress bar banner showing the proposal completion progress.

Step 1 - Find a suitable Call for Proposals **H2020 ONLINE MANUAL**

The Commission publishes on the Participant Portal all the Calls of its research and innovation programmes H2020, and you can search calls from previous programmes (FP7 and CIP). In addition you can find information about some additional calls in the [Other Funding Opportunities](#) section. If you apply for the first time and do not know yet the programmes, it is useful to read the H2020 Online Manual. It helps you choose the most suitable programme for your area and profile. Besides, you can [search according to your research topic](#) with key words and set filters in the calls list.

Your [National Contact Point](#) can also help you find the most suitable call for your profile. SMEs are in addition supported by the [Enterprise Europe Network](#).

Step 2 - Find project partners or apply as an individual **H2020 ONLINE MANUAL**

Collaborative projects: most of the EU funded projects are collaborative projects with **at least 3 organisations** from different EU Member States or Associated countries. Various [partner search services](#) help you to find organisations that would like to participate in the proposals. You can also post your collaboration offers there.

Individual researcher or team: It is also possible to submit your proposal as an individual researcher, team or organisation. Such opportunities are mainly funded under the H2020 **European Research Council (ERC)** grants and the **Marie Skłodowska-Curie actions (MSCA)**, and individual SMEs can apply to the **H2020 SME instrument**.

Step 3 - Create an account on the portal **H2020 ONLINE MANUAL**

To fill in the required forms and submit them electronically to the Commission, you first need to create an account on the

Participant Portal: The BENEFICIARY REGISTER Page After Login

H2020 ONLINE MANUAL

The Commission has an **online register of the beneficiaries** participating in the EU research and innovation or education, audiovisual and cultural programmes. This allows consistent handling of the beneficiaries' official data and avoids multiple requests for the same information.

If you want to participate in a project proposal, your organisation needs to be registered and have a **9-digit Participant Identification Code (PIC)** that is the unique identifier of your organisation and will be used as a reference by the Commission in any interactions.

Is your organisation already registered? Search PIC

As you have to register your organisation only once, please see first if it has already been registered.

SEARCH

Click to organisation Search page and check if your organisation and/or your Partners' organisations are already registered.

Register your organisation

Please note that you need to have a valid ECAS account to start registering your organisation or update its data. Login in the Portal or [create your account](#), if you are a new user.

Please keep the legal data of your organisation at hand. You may check the information that will be necessary for the registration in the [user manual](#). To start registration, click on the button below.

REGISTER ORGANISATION

Click to initiate the organisation registration process – this action will open in a new window the Registration Wizard in the Unique Registraton Facility.

You can quit the registration process at any time; the data entered can be saved as a draft and you may **continue your registration** at a later time. Save the already entered data by clicking on the **Save draft** button at the bottom of the registration tool before you quit it.

After providing all the necessary details, click on the **Confirm** button to submit your registration. You will receive a **PIC number** that should be used in any interactions with the Commission in the future.

If you did not finalise the registration, you can **continue** it later on [My Organisations](#) of the My Area section. Incomplete, draft registrations are automatically deleted after one year.

You can modify **your organisation data** also on the [My Organisations](#) page of the **My Area** section.

Once your data has been validated by the Validation Service team, only the [Legal Entity Appointed Representative \(LEAR\)](#) (or the persons with an "Account Administrative" role for this organisation) will be able to request the modification of the data and provide the corresponding supporting documents on the **My Organisations** page of the Participant Portal.

APPENDIX A: COMPATIBILITY & TROUBLESHOOTING YOUR SYSTEM CONFIGURATION

Compatibility

The electronic submission system of the European Commission is a web application, so you will need a working Internet connection to use it. Although the system has been tested with a set of typical reference configurations, it is not guaranteed that the system will be fully functional on your computer. The system provides a diagnostic window that will warn you about some possible incompatibilities.

To use the electronic submission system, ensure that your computer configuration complies with the following mandatory system requirements:

Component	Mandatory requirements
Adobe Reader	Version X or above, all previous reader installations must be removed prior to installing the latest version
Internet connection	ADSL Line, 512 Kbps or faster
Memory	RAM – 512 Kbytes or more
Screen resolution	Minimum 1024 x 768 or higher
JavaScript	JavaScript must be enabled
Cookies	Cookies must be enabled
Pop-up blocker	No effect
User ID	Valid user ID with the Commission (ECAS account)

The following table shows the operating systems and browsers actively supported by the system, as well as the Adobe Reader version required for each configuration.

Operating system	Internet browser	Adobe Pro or Acrobat Reader
Windows XP	Internet Explorer 8 & 9 Firefox 3.6 or above Google Chrome 10 or above Opera 10.6 & 11 Safari 5	Version XI or above
Windows Vista & 7	Internet Explorer 8 & 9 Firefox 3.6 or above Chrome 10 or above	Version XI or above
Mac OSX	Safari 5 or above	Version 10.1.3 and above

Note: The system is best viewed with Mozilla Firefox 3 and above

Note: The use of mobile devices for online submission of research proposals is not supported.

Troubleshooting Your System Configuration

The primary compatibility issue concerns the seamless viewing and editing of the pdf forms inside your browser window once you click on **edit forms**. Your browser will either display the forms inside its window or it will download them in your download folder (after downloading them, you will be able to open them in Acrobat Reader X or XI and complete them. Whether you work on the form inside your browser window or with Acrobat Reader after downloading them, the end result is the same. In either case, as described in User Action 4 above, once you click on Validate, the form will perform a check and provide you the corresponding notices, and when you click on Save and Close the information will be sent to and saved on the Commission's servers. **REMEMBER: THE DOWNLOADED FORM HAS A TIME STAMP FROM THE COMMISSION'S SERVERS AND IT EXPIRES 13 HOURS AFTER IT IS DOWNLOADED .IF YOU DO NOT COMPLETE, SAVE AND CLOSE THE FORM WITHIN 13 HOURS, YOU MUST DELETE THE OLD FORM, RETURN TO THE WIZARD AND DOWNLOAD A NEW COPY OF THE FORM.**

The bottom left side of your wizard will indicate whether your system is configured to display the form inside your browser window:

Configuration OK: your system meets the minimum requirements and all PDF forms will open within the browser.

Configuration unconfirmed: your browser does not meet the minimum requirements and all PDF forms will be downloaded and open offline, outside your browser.

What to do if your system configuration is not OK?

1. Make sure you have the correct version of Adobe Reader installed (see compatibility section above) and is set up as your default PDF handler. If you have an older version of Adobe Reader, uninstall it before installing the new version. To download Adobe Reader go to [Adobe Reader Download](#) and follow the instructions.
2. Most browsers have their own built-in PDF viewers. If your browser's built-in PDF viewer is not allowing you to properly open, view and edit the Administrative form in step 5, it is recommended that you disable your browser's PDF viewer and instead use the corresponding Adobe Reader plug-in. This way you will be able to open up, view and edit the form within the browser. As stated above, you can also complete the form offline and then save it to the Commission servers,.

The following instructions explain how to enable the Adobe Reader plug-in for the supported browsers and operating systems.

On Windows

Internet Explorer 7, 8 and 9

The steps to enable the Adobe PDF plug-in vary depending on your version of Internet Explorer.

- Select Tools and click on Manage Add-ons.
 - (Or select Tools > Internet Options, click the Programs tab, then click Manage Add-ons.)
- In the Show pop-up menu, select All Add-ons.
 - (In some versions the option reads: Add-ons That Have Been Used by Internet Explorer.)
- Scroll to the section of add-ons for Adobe Systems and select Adobe PDF Reader.
- If the status of Adobe PDF Reader is set to Disabled, click the Enable button.
- Click OK to confirm.

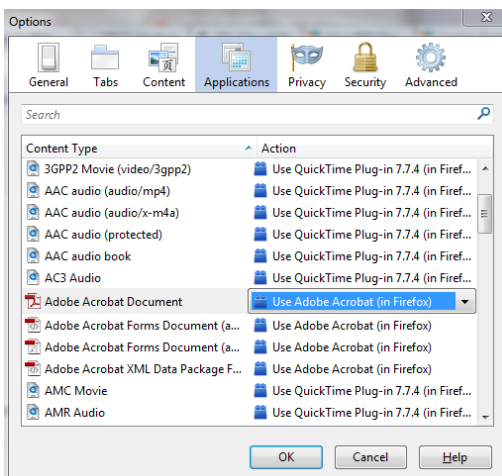

Firefox 3.6 up to 18

- Select Tools and click on Options.
- Click the General tab, then click Manage Add-ons.
- Click the Plug-ins tab (purple/blue icon). (The layout of this dialog box differs depending on the version.)
- Find and select Acrobat or Adobe Reader:
- If the Disable button is displayed (as shown above), the add-on is enabled and no action is required.
- If the Enable button is displayed, click Enable.

Firefox 19 and above

Please note that Firefox 19 and above has a built-in PDF viewer. You will need to enable the Adobe PDF reader plugin.

- Click on Tools and then click on Options
- Select Applications
- In the Content Type column, find Adobe Acrobat Document and click on it to select it
- In the Action column, click on the corresponding drop-down arrow and select "Use Adobe Acrobat (in Firefox)".

Google Chrome

Google Chrome uses the Chrome PDF Viewer as the default application to open PDF files. In order for the system to open up the PDF eForms within the browser you must disable Chrome PDF viewer

- On your browser type **chrome://plugins**
 - the Plug-ins page will be displayed
- Disable Chrome PDF Viewer
- Enable Adobe Acrobat plug-in

Safari 5

- Choose Action menu > Preferences and click Security. (The Action menu is near the upper-right corner of the Safari window, and looks like a gear.)
- Make sure that "Enable plug-ins" checkbox is selected

Safari will by default display PDF files using the Adobe Reader plug-in.

Opera 19

The latest Opera version will not display the pdf forms inside the browser. It will automatically download them in your download folder. You will need to open and work on them using the Adobe Reader or Adobe Pro application. When you are ready to click on the embedded Validate Form link or on the embedded Save and Close link, make sure your computer is connected to the internet, so that the information can be automatically validated or uploaded and saved to the Commission's servers.

On OS X

In OS X, the latest versions of Adobe software, Acrobat 10.1.x or XI and Reader 10.1.x or XI support viewing PDF files only inside the Safari browser. Other browsers, such as Firefox, Chrome and Opera, are not supported. We suggest you use Safari.

If Safari does not display pdf forms in the browser window, uninstall all older versions of Adobe Reader and [download](#) the most recent one. First close Safari and then install Reader. Launch Safari and you ought to be able to open the pdf files inside the Safari window. If you install Adobe Reader 10.1.x without first closing Safari, Safari will not display the pdf file inside its browser window until it is re-launched. For further help, please see <http://helpx.adobe.com/acrobat/kb/troubleshoot-safari-plug-acrobat-x.html>

These are the respective displays on the bottom left side of your wizard window for Firefox, Chrome, Opera and Safari

The PDF viewer browser plug-ins for Firefox, Chrome and Opera will not work because the form format is not supported by the plug-ins, and it will not display. These browsers will automatically download the form to your download folder and you will be able to complete it offline.

Ethics in FP7 is important throughout the project lifecycle, from the concept and the initial design until the dissemination of results. If there are ethics issues associated with or raised by a project, the applicants must describe how these will be dealt with in Annex I to Grant Agreement.

Indirect cost method ICM	It is the method for determining indirect costs (the so-called ICM). Please note that the choice of an ICM for a legal entity depends on its legal status and accounting methodology and it is usually valid for the entire duration of FP7. In FP7 all departments, faculties or institutes which are part of the same legal entity must use the same system of cost calculation (unless a special clause providing for derogation for a particular department/institute is included in the GA).The choice of the ICM should be carefully assessed. If a change of the ICM is required, it will have an effect only on future grants with the exception of the correction of mistakes, further details are given in the Amendments Guide. (ftp://ftp.cordis.europa.eu/pub/ftp7/docs/amendments-ga_en.pdf).

Participant Identification Code PIC	Organisations participating in Research (H2020, FP7) programmes are assigned Participant Identification Codes (PIC). The possession of a PIC enables organisations to take advantage of the Unique Registration Facility (via the Beneficiary Register on the Participant Portal) and to identify themselves in all transactions related to Research (H2020, FP7) proposals and grants.
Participant Portal PP	<p>The Research and Innovation Participant Portal is the single entry point for interaction with the research Directorates-General of the European Commission, it hosts a full range of services that facilitate the monitoring and the management of proposals and projects throughout their lifecycle, including calls for proposals, and access to the submission and evaluation of proposals service.</p> <p>If you want to participate in a project proposal, your organisation needs to be registered with the Commission. Registration is available from the Participant Portal Beneficiary Register page where you can check if your organisation is already registered; if not, you can start the registration process on the same page and you will be redirected to the Unique Registration Facility (URF) to complete the process. The same process applies for beneficiary registration data updates – you access your organisation from the Participant Portal My Organisations page and from there you can go to the URF system to update your organisation data.</p> <p>If your proposal is successful, you will also need to know about the following (see the H2020 Online Manual available from the Participant Portal):</p> <ul style="list-style-type: none"> • the checks carried out on the information you provide on registering • appointing a representative (LEAR) • the checks that may be carried out on your organisation's financial viability

Where the Consortium requires a specific fixed start date for the project that precedes the entry into force of the Grant Agreement, full details regarding the justification for the request should be given in writing to the Project Officer prior to the finalisation of Annex I to the Grant Agreement and of the GPFs. The Commission/REA may refuse this request if no sufficient and acceptable justification is provided.</p> <p>Costs can be incurred from the start date of the project but not before.
